8 PRESENTATION
Fever's quirky, unique style makes the whole experience pop, and ultimately sets it apart from being just another, forgettable rhythm game.

7 GRAPHICS
Simple and colorful, the graphics befit the game but definitely don't push the system.

8 SOUND
Some great tunes will keep you bopping your head long after the games are over.

6 GAMEPLAY
Significant flaws, like poor multiplayer and a broken grading system, damage what is otherwise a solid gameplay experience that is truly fun and more addictive than it has any right to be.

6 LASTING APPEAL
You'll breeze through all the games in a matter of hours, but getting medals for them all is a different matter. However, the fact that the grading system feels broken makes this less appealing.
